

Sanitation Update - Curbside Recycling

Effective, July 1, 2020 The City of New Ellenton has decided to remove recycling as part of your standard Wednesday curbside waste service. No refuse should be placed at the street for pick up until 5:00PM on Tuesday prior to the weekly pickup. In addition, trash contents must be inside of your trash cart and not on the outside of your cart.

NOTE: Any refuse placed at the street and not picked up by Waste Management is subject to collection by Public Works. The resident at the location will receive an invoice covering the cost when this special pickup is required.
